

# Year 1 Geography

## Why is The Weather in the UK Different to Nigeria?

### Prior learning

In Reception, you learnt about the continent of Africa as part of your Animals topic. You read "Handa's Surprise" which is located in Kenya, a country located in East Africa.

### Future learning

In Year 5, you will learn more about the continent of Africa, as part of your Safari topic. You will learn about locations in East Africa including Kenya and Tanzania.

### In this topic you will:

- Learn what geography is and the difference between human and physical geography.
- Use simple compass points to locate countries and cities within The United Kingdom.
- Carry out fieldwork to explore the weather patterns in the United Kingdom.
- Locate Nigeria and its key cities.
- Compare and contrast the climate of Nigeria with that of the UK, providing reasons why they differ.

### Key Vocabulary

<b>Geography</b>	The study of locations across the world and the features and people within them.
<b>Physical Features</b>	Natural features of a given location.
<b>Human Features</b>	Features of a location that are influenced by humans.
<b>Equator</b>	A line dividing the Northern and Southern Hemispheres. The closer a location is to the equator, the warmer its climate.
<b>Temperature</b>	The measurement used to tell how hot or cold a location is.
<b>Weather</b>	The way the air and the atmosphere feels. It includes the outside temperature, the wind, whether it is raining, sunny, hailing, snowing, sleeting, foggy, or cloudy.
<b>Climate</b>	We call the general weather trends and the extremes of weather in one place a 'climate.'
